

You LOVE the look of wood floors... but your basement floors will likely get wet from water vapor, a plumbing leak, or surprise leak from a big rain - which would surely ruin a wood floor. What can you do?

## **Mill**Creek Waterproof Flooring<sup>™</sup> is the answer!

MillCreek Flooring<sup>™</sup> uses a patented process that produces the textured grain of hardwood out of PVC, giving MillCreek Flooring<sup>™</sup> the same look, and feel as a hardwood floor without the wood! And when your basement floor gets wet, you don't have to worry about your floor being ruined. Tests have proven it can be used in any environment, with no influence from humidity.

MillCreek Flooring<sup>™</sup> does not use the traditional bonding method with formaldehyde content; and our flooring is environmentally friendly because of no formaldehyde, no expansion, and it is bacteria free. An added benefit of our system is that

the floor can be used instantly after installation. Furniture can be immediately placed on the new floor. MillCreek Flooring<sup>™</sup> offers the perfect solution for your decorating plans...
